## Why Students Enroll

## How Students Rate the Courses

Instructor's knowledge of subject matter

Quality and effectiveness of discussion area responses

I would recommend this course to others

## What Students are Saying

### Luscious, Low-Fat, Lightning-Quick Meals

I took this course to learn new recipes. Not only have I been able to expand on my recipes, but I also learned a lot about food as well. Great course, I've been recommending it to my friends!

### Advanced Microsoft Excel 2010

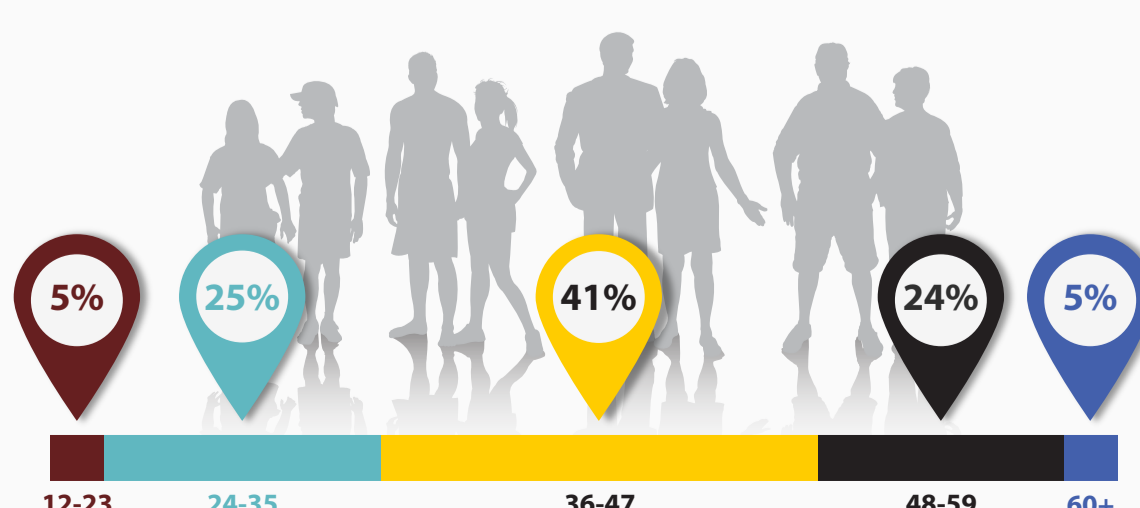

I have taken all three Excel 2010 courses ... and enjoyed them all. The lessons were laid out well, clear, and concise. I might not use everything that was covered, but it was interesting learning them. I also learnt a few tips and tricks along the way.

### Beginning Writer's Workshop

I found Ann's lessons were concise and challenging. The comments on my assignments were encouraging, helpful and inspired me to write. Thank you!
